VISION

To be an institution where the most formative years of a young mind are spent in the guided pursuit of excellence while developing a spirit of inquisitive questioning, an ability to excel in the pressure of a fast-changing professional world, and a desire to grow into a personality than a person, in an environment that fosters strong moral and ethical values, teamwork, community service and environment consciousness.

MISSION

- To be the enablers of the confluence of academic rigor and professional practicality.
- To train students to be skilled professionals, with the hunger and ability to become leaders.
- To hone not just the intellect of our students, but also their character and personality.
- To bring global best practices to our students through widespread use of technology.
- To empower our faculty to constantly develop new skills and excel professionally.
- To provide the best campus environment to students and faculty with all facilities to nurture their interests.

ABOUT MANGALAYATAN UNIVERSITY, ALIGARH (U.P.)

To be a leader in education, an institution must be founded on two basic principles: keeping the interest of students as its foremost priority and recognizing that knowledge is ever-growing, omnipresent and requires the opening of minds.

At Mangalayatan University, we take pride in these two qualities being at the core of our existence. Mangalayatan (translated as the germinal bed of positive thought) aims to perpetuate a culture of hardwork, embracing change and preparing oneself for the fast-progressing world with the latest skills and the highest level of social and personal values. Mangalayatan University, Aligarh was founded in 2006 and has graduated over 6000 students. Nearly 2000 students are currently studying on Aligarh campus.

Mangalayatan University vision is to give students from all kinds of background, a quality educational experience leading to legitimately rewarding career opportunities.

Hospital

MANGALAYATAN HOSPITAL

Mangalayatan Hospital in Mangalayatan University campus is the recently added medical facility centre in the rural area of Beswan, Aligarh. The hospital plans to offer a variety of services including OPD, Diagnostic Centre and Emergency facilities having multi-speciality services.

Mangalayatan Hospital under the aegis of philanthropic zeal of Mangalayatan university in providing services to the community, has planned to open shortly an operation theatre, 100-Bed ward for in-door patients and OPD for varied departments as available in multi-speciality hospitals. The OPD has already started for in-house MU staff and students and soon the OPD for various specialization will be operational subject to statutory permissions and compliances.

The Hospital building has already inducted such equipments and accessories as mandated in advanced hospital services.

MU Hospital will prove to be a boon for rural community of Beswan, Aligarh by serving the nation through services to this great cause of humanity.

MANGALAYATAN RADIO

Mangalayatan Radio named as "Radio Naarad" 90.4, Jan Jan ki Mangalvani, is the community based extension services of Mangalayatan University with statutory broadcasting licence from Govt. of India.

Radio Naarad is focussed on extending its services by exploring an array of social issues including education of girl child in rural India, health and nutrition related issues, agriculture, environmental awareness and save water missions.

As a true democratic platform for the rural community, "Radio Naarad" aims at benefitting society by empowering the rural people in getting their voices heard. The "Radio Naarad" - Jan Jan ki Mangalvani commenced broadcasting on 19th, May 2019 with great aspirations and expectation of the village community surrounding the Mangalayatan University by offering not only musical bonanza for entertainment but also the wise discourses of experts from varied fields for uplifting the life style and wellness of rural community.

Best of Luck to "Radio Naarad".

17	MCA	2	Graduation	50,000

- Registration Fee (One Time) for all programs will be Rs. 2000/-
- Examination Fee for all programs will be Rs. 1200/- per semester

ABOUT FLEXIBLE - TECHNOLOGY ENABLED LEARNING (F-TEL) PROGRAMS

This Flexible approach attempts to integrate World of Work with Advanced University level studies while utilising permissible advanced techniques like e-learning, audio, video, lectures, MOOCS (Massive Open Online Courses) and more. The system planned is Student Centric and attempts to harmonise Work, Study and Family Life. In the initial stages MOOCS hosted on MHRD GOI supported portals like SWAYAM and NPTEL are being integrated with regular courses up to 20% as planned by UGC regulations. These are full fledged courses offered by eminent faculties whose credits upon completion are taken into MU records as equivalent credits.

NPTEL is the National Program on Technology Enabled learning where recorded classrooms from institutions have been loaded and free access is provided to students, who want to learn similar technologies including its own LMS will be deployed by MU to do Web in arsenal broadcast audio lectures using its CRS. Thus with Judicious use of TEL and flexibility in scheduling Classes MU hopes to offer a UGC mandated CBCS where after completing requisite credit hours students can get certificates, Diplomas, Advanced Diplomas, Bachelor's degrees, PG Qualifications with diverse choices of electives. It is envisaged that registration submission of assignments will be online Alessandro to Digitised journals, Digital libraries will be provided. Flexible entry and exit and re-entry will be permitted. MU will within the frameworks of UGC and other statutory bodies stipulations will provide the most Flexible and technology enabled Programs at affordable prices. There would be 2 admission cycles in a year.

The F-TEL approach has taken the cue from recent change in UGC policy of allowing use of MOOCS (Massive Open Online Courses) up to 20% of courses. MU has devised e-oriented curricula keeping Policy parameters in mind. MU besides well written text will deploy Webinars, audio and video lectures and online journals. The delivery of curriculum includes classroom inputs, work exposure and the quality time at home. Therefore the physical presence of the candidate in campus may enjoy marginal advantages. The advanced technology & enabled learning and the policy changes with UGC & MHRD facilitate this flexibility. In accordance with this thought the class work for student is stipulated the programs only from the post lunch sessions on Friday till the evening Sunday on all working weeks. Programs follow CBCS system and after completion of stated credits students can claim a Certificate, Diploma, Advanced Diploma, Bachelors or Masters degree as the case may be. There will be two admission cycles in a year and a student can exit after a certification and return again to complete rest of the credits. Initially, MOOCS through MHRD funded and UGC APPROVED PORTALS subsequently MU will Web Cast its own courses and support with audio counselling over MU managed Community station. Flexibility in delivery systems and application of technology has impelled the faculty to give the pedagogy the Acronym of F-TEL (Flexible - Technology Enabled Learning).
