INVITATION

We feel great pleasure to inform you that institution of Engineering & Technology, Department of Agriculture & Department of Business & Management, Mangalayatan University, Aligarh, Uttar Pradesh, India is organizing an International Conference on Environmental Sciences, Technology & Management (ICESTM-2021) in collaboration with Doctors Krishi Evam BagwaniVikas Sansthan, Lucknow,Uttar Pradesh and Krishi Rakshak Samiti, Budaun, Uttar Pradesh September23rd-24th, 2021. The organizing committee of the conference invites scientists, academicians of National and International levels, professionals, research scholars, NGOs, social and extension workers, students, corporatists, entrepreneurs, farmers, and others who are actively involved in practices and research areas related to agricultural and applied sciences. The main aim of the conference is to provide a common platform for the researches, scientists, technocrats and students from all over the world to share and discuss their latest research finding,

development activities in the area of agricultural and all applied sciences which will boost their knowledge and experience in the concerned area.

ABOUT THE INTERNATIONAL CONFERENCE

The objective of the International Conference on Environmental Science, Technology & Management (ICESTM-2021), will be to provide a major interdisciplinary forum for presenting new approaches from relevant areas of environmental science engineering & Management to foster integration of the latest developments in scientific research into engineering applications, and to facilitate technology transfer from well-tested ideas into practical products, waste management, remedial processes, and ecosystem restoration. Reports on renewable energy research are especially desired. Environmental humanity and sociality such as environmental ethics, environmental law, environmental economy and environmental management are also included in the scope of the conference. Researchers, engineers, site managers, regulatory agents, decision-making officials, consultants, and vendors will all benefit from the opportunity to exchange information on recent research trends, to examine ongoing research programs, and to

investigate world-wide public and regulatory acceptance of environmental protection and remediation technologies. Environmental disturbance and pollution are complex problems worldwide. The current development of modern science and technology combined with management on social and economic activities are contributing more and more to solution of the problems. Although considerable environmental protection work has been and is presently being conducted, a multidisciplinary platform for environmental scientists, engineers, management professionals and governmental officials to discuss the latest developments in environmental research and applications will be very helpful for protecting our global village.

This conference will bring together the global scientific community, policymakers, administrators, industry representatives and other stakeholders to exchange and share their experiences, new ideas. This conference will offer to discuss the practical problems and challenges and solutions adopted by respective workers. It will also be a platform to strengthen the friendship and collaboration among the scientists, academia and the institute. ICESTM is to bring together innovative academics and industrial experts in the field of science, Engineering, Technology and Management to a common forum. The Web- Conference would offer a large number of invited lectures from renowned speakers all over the country.

CONFERENCE OBJECTIVES

To provide International Forum for researchers, engineers, professors, educational scientists, technologists and students in the areas of Education, Science and Technology. It will be an excellent opportunity to present, demonstrate and discuss research, development, applications, and the latest innovations and results in the field of Education and Industry. The conference will also provide a platform for researchers, instructors, scientists, engineers and students to exchange their ideas and intellectual view on related topics.

ABOUT THE MANGALAYATAN UNIVERSITY, ALIGARH, UTTAR PRADESH, INDIA

To be a leader in education, an institution must be founded on two basic principles: keeping the interest of students as its foremost priority and recognizing that knowledge is ever-growing, omnipresent and requires the opening of minds. At Mangalayatan University, we take pride in these two qualities being at the core of our existence. Mangalayatan (translated as the germinal bed of positive thought) aims to perpetuate a culture of hard work, embracing change and preparing oneself for the fast progressing world with the latest skills and the highest level of social and personal values. Situated 20 km from the Yamuna Expressway in Uttar Pradesh, Mangalayatan University was founded in 2006 and has graduated over 10,000+ students. Nearly 3500+ students from India and abroad are currently study on campus. Mangalayatan University

vision is to give students from all kinds of background, a quality educational experience leading to legitimately rewarding career opportunities.

Our society was established in 1999 at Lucknow with an idea of Farmers Field program, Kisan Shiqayat' & Society Organizes Conferences at National as well as International levels. Later in 2006 society came up with a scientific journal by name of 'Journal of Eco-friendly Agriculture'

MAJOR THEMES OF THE CONFERENCE (Topics Not Limited to.....)

DEPARTMENT OF CIVIL ENGINEERING

Theme 1: Environmental Science, Ecology & Ecosystem

Theme 2: Geotechnical Engineering & Architecture Design

Theme 3: Geology, Hydrology, Disaster Management & Remote Sensing

Theme: 4 Road safety and Highway Engineering

Theme : 5 Inter-Disciplinary Engineering & Allied topics

DEPARTMENT OF MECHANICAL ENGINEERING

Theme1: Fluid and Thermal Engineering

Theme 2: Industrial Engineering & Management&Ultrasonic Welding

Theme 3 Engineering Material & Computational Engineering

Theme 4 Production Engineering & Technology

DEPARTMENT OF ELECTRONICS & ELECTRICAL ENGINEERING

Theme 1: Electrical Machines and Drives

Theme 2: Power Electronics and Applications

Theme 3: Wireless Communication and Network

Theme 4: Artificial Intelligence, Expert Systems and Neural Networks

Theme 5: Emerging Technologies and Other Applications

DEPARTMENT OF COMPUTER APPLICATION

Theme 1. Machine Learning and Optimization

Theme 2. Artificial Intelligence & Artificial Neural Networks

Theme 3. Computing in Mobile Ad hoc Networks

Theme 4. Mobile Information Systems

Theme 5 Web Intelligence and Applications

DEPARTMENT OF AGRICULTURE

Theme 1: Innovative Approach in Agriculture & Allied Science

Theme 2: Eco- friendly farming

Theme 3: Natural resource management, Food and Environmental Security

Theme 4: AGRI and Animal Husbandry start –ups and Entrepreneur
